WORK EXPERIENCE

Growintern

Basic Web Developer Intern

Remote

Dec 2023-Jan2024

- Designed and developed responsive websites using HTML, CSS, and JavaScript, ensuring optimal viewing experience across various devices

U R Star Technologies

REACT JS Intern

Dehradun

Feb2024 - Aug2024

- Developing responsive and user-friendly frontend components for the Education web application using the React Js
- Integrating backend APIs with the frontend of the Education web application, ensuring seamless communication and functionality.
- Utilized Redux toolkit for state management to ensure data consistency across the application.
- Collaborating closely with the backend team to ensure efficient integration of frontend and backend functionalities, delivering a cohesive and robust web application.

PROJECTS

- Intellicon** Intellicon is an AI-driven chat application built using Vite, React, MongoDB, and Express.js. It leverages Google's Gemini AI API to deliver intelligent, real-time conversations, making it ideal for virtual assistants and customer support.
